

ALDEN WRENCH SETS - STAINLESS STEEL

AldenWrench has the smallest swing angle and the smallest head size of all open-end ratcheting designs.

With a 30 degree swing angle, this compact wrench needs only half the room to ratchet compared to other open-end ratcheting wrenches that need a 60 degree swing angle.

Suitable for use in:

- Automotive
- Aeromotive
- Aerospace (AldenWrench contains NO chrome or cadmium plating which is a basic requirement for use in the Aerospace Industry)
- Marine Industry

PROWRENCH

Pro-Wrench has the smallest swing angle and the smallest head size of all open-end ratcheting designs.

With a 30 degree swing angle, this compact wrench needs only half the room to ratchet compared to other open-end spanners that need a 60 degree swing angle.

Also featuring a solid open-end design at the opposite end, this combination makes it the ideal tool for those tight, hard-to-reach spots.
