

SEALWEL

SEALWEL AIRFLOW POWDER

RADIATOR SEALANT and LEAK PREVENTATIVE

Eliminates radiator “comebacks”.

A premeasured scoopful blown into each radiator provides insurance against pin-hole leaks and seepage after installation.

SEALWEL is ...

Safe for aluminium and all metals

User friendly: easy to use

Preventative: stops leaks and seepage from developing

Economical: 1 scoop sufficient for the average radiator

Reliable: used by radiator shops for 50+ years

Been proved on both road and track

INSURE your good work against installation & transport damage with

SEALWEL AIRFLOW POWDER

(Part # T5100)

350gm = 30 scoops

INSTRUCTIONS:

Simply blow a pre-measured scoopful into the radiator – for larger radiators use 2 scoops.

Can also be used in a filled radiator.

Wear a mask to avoid dust inhalation.

SEALWEL – SEALS as it CLEANS as it LUBRICATES

EVERY ENGINE NEEDS SEALWEL
