

NEW PRODUCT

CHAMFER-PRO

External Deburring Chamfer Tool

HIGH CARBON ALLOY STEEL

The Chamfer-Pro is great for removing burrs and ridges from pipes or threaded rods.

It is suitable for use on metals including stainless steel, hardened steel, mild steel, copper and brass, as well as wood, fibreglass and plastic.

This chamfer tool is designed to help prevent sparks, burns or cut hands. When used properly, the tool does not overheat the work piece. **Threads are sheared off, not folded over as may happen when using a grinder.**
