

SIDE CUTTERS/PLIERS

High quality, cushion grip long nose pliers. Made in Italy.

Part No.	Type	Size
378R	Pliers	Long nose pliers (serrated)

FLUSH CUTTERS

High quality, cushion grip heavy duty flush cutters. Made in Italy.

Part No.	Type	Description
2178	Flush cutter	Heavy duty flush cutter

The PK50 and PK51 are high-quality cable shears, specifically designed for cleanly & neatly cutting through thick electrical cable, satellite cable, cord & nylon rope, etc.

The unique curved jaw design yields an exceptionally neat & tidy end cut using high leverage for ease of cutting (less hand fatigue). Ideal for tradesmen such as electricians, satellite / aerial installers etc.

Part No.	Size	Cutting capacity
PK50	164mm	ø 9mm
PK51	212mm	ø 11mm

Part No. PK50

Part No. PK51

Cable Shears FINE CUT

The curved blades hold a cable securely and the shears mechanism enables you to make a precise cut.

Conventional Pliers

The pressure provided from flat blades may crush a cable or allow slippage.

Outer Blade

Wire cutter suitable for copper wires.

Inner Blade

Curved blades suitable for insulated cables, precise cutting of flat cables, coaxial cables, power supply cords, LAN cables, etc.
