

MULTI-PURPOSE SCREW REMOVAL PLIERS

The PZ series pliers are a range of heavy duty multi-purpose pliers, which have the added feature of being able to remove stuck or damaged screws. The screw removal pliers are a patented product that contain vertical and horizontal serrated teeth, which provide a non-slip gripping mechanism for removing rusted or damaged screw heads.

Specially designed for removing:

- Screws frozen with rust
- Stripped or damaged screw heads
- Special, unique or tamper-proof screw heads

Features:

- Ideal for unfastening frozen or small size special screws
- Slender jaws and pocket-sized body with strap holes
- ESD-Safe handle made of thermoplastic elastomer featuring cushioned grip and oil resistance

Part No.	Size
PZ55	150mm
PZ56	175mm
PZ57	120mm
PZ58	160mm
PZ59	204mm
PZ60	190mm

Part No. PZ55

Part No. PZ56

Part No. PZ57

Part No. PZ58

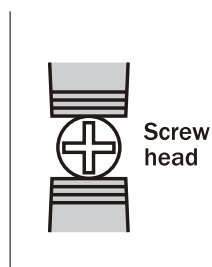

Part No. PZ59

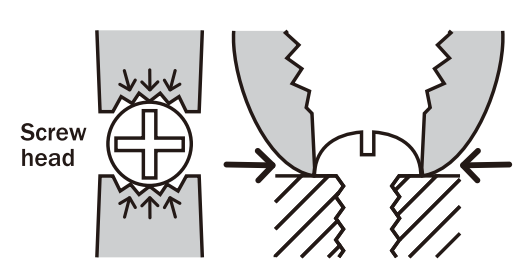

Part No. PZ60

Ordinary pliers

Ordinary pliers jaws are lined with horizontal serrations. When you grasp and turn a screw head with ordinary pliers, the jaws slip and the screw remains stuck

PZ series pliers

Vertical serration
Specially designed jaws generate gripping power

Maximizes the friction
Perfect fit serrations maximise the friction with no slip
